SUMMARY

Computer Science and Engineering graduate with a strong focus on cybersecurity, backend development, and automation. Experienced in Linux, networking fundamentals, blockchain applications, and Python scripting, with hands-on practice through CTF competitions and TryHackMe labs, as well as academic projects and industry training.

WORK EXPERIENCE

Software Engineer Trainee, Novac Technology Solutions Jul 2025 - Present

- Developed and maintained full-stack applications using ASP.NET, ADO.NET, and relational databases, following clean coding practices.
 - Built and supported RESTful APIs and optimized database operations.
 - Debugged and resolved application issues, improving system stability.
 - Collaborated with senior engineers on performance optimization, testing, and deployment
-

EDUCATION

B.E. Computer Science and Engineering 2021 – 2025

Sri Venkateswara College of Engineering

- Data Structures, Operating Systems, and Cybersecurity Fundamentals
- CGPA: 8.2 / 10

Higher Secondary Education 2019 – 2021

Velammal Matriculation Higher Secondary School

Score: 83%

ACHIEVEMENTS

Mar 2024

PALS ECU PECAN+ CTF Finals

- Qualified from online rounds among 100+ teams
- Reached Top 40 teams and competed in finals at IIT Madras Research Park
- Demonstrated teamwork and problem-solving under pressure

Mar 2023

Model Phoebus Cartel 2.0

- Secured 2nd Place
 - Idea presentation contest based on historical technology case studies
 - Strengthened analytical thinking and presentation skills
-

CERTIFICATIONS

- **Google Cybersecurity Professional Certificate** — Coursera
- **Essentials for Ethical Hacking** — Coursera
- **Learning Ethical Hacking** — Z Security (Udemy)
- **The Complete Web Development Bootcamp** — Udemy

PROJECTS, INTERNSHIPS & ACADEMIC EXPERIENCE

Vice President, Compete to Compute Club

Jul 2023 – Jul 2024

- Orchestrated six technical events spanning multiple departments and domains, including symposiums, workshops, and seminars, with a strong focus on inclusivity and participant engagement.
- Coordinated student teams, faculty, and speakers to ensure seamless execution and timely delivery of all events.
- Demonstrated strong leadership, communication, and organizational skills through effective team management and cross-department collaboration.

DAPP CHAT

Sep 2024 – Jul 2025

- Built a decentralized chat platform enabling secure, transparent, and user-driven communication.
- Implemented Ethereum smart contracts to manage users, messaging, and friend interactions.
- Developed a global chat feature with unique message keys ensuring integrity and traceability.
- Enabled private messaging and friend management within a trustless environment.
- Tech Stack: Next.js, React.js, Solidity, Ethereum

Blog Management System (Internship)

Aug 2025 - Nov 2025

Full-Stack .NET Application | ASP.NET Web Forms, C#, ADO.NET, SQL Server

- Developed a collaborative blogging platform with blog creation, rich-text editing, and publishing features.
- Implemented three-layer architecture: Presentation (ASP.NET Web Forms), Business Logic (C#), Data Access (ADO.NET + SQL Server).
- Designed multi-user workflows with draft submissions, approvals, and public/private blog controls.
- Stored blog content as HTML files with metadata in SQL Server for fast rendering and efficient storage.

Ethical Hacking Tools Suite

Nov 2025- Present

- Developing a Python-based suite of ethical hacking and network security tools for learning and controlled security testing.
- Implementing modules for network scanning, traffic analysis, spoofing detection, and vulnerability assessment automation.
- Strengthening expertise in Linux, networking protocols, and offensive security concepts with defensive applications.

TECHNICAL SKILLS

- **Programming:** Java, Python
- **Web & Backend:** HTML, CSS, JavaScript, React.js, Node.js, ASP.NET, ADO.NET
- **Cybersecurity:** Linux, Networking Basics, Nmap, Hydra, John the Ripper, CTFs
- **Database:** MS SQL, MongoDB
- **Blockchain:** Ethereum, Solidity
- **Tools & Others:** Git, Data Structures, Virtual & Augmented Reality
